

Kathleen Lute Library & Tree Arboretum

Ogallala became the 10th affiliate off Nebraska Statewide Arboretum (NSA) in 2016 and was acknowledged as the FIRST affiliate to include all community trees. A Hybrid Elm was planted at Williams Park, just west of the Community Garden, to commemorate this occasion.

In July of 2020, a variety of shade trees were planted at the Kathleen Lute Memorial Library. These 22 new trees are identified on the map above and will soon have markers to provide an educational tour to the public. This map highlights some of the trees that are suitable for our area.
